Education

Indraprastha Institute of Information Technology Delhi

New Delhi, India

B.TECH. IN ELECTRONICS AND COMMUNICATION ENGINEERING GPA 6.4/10

August 2015 - May 2019

- Undergraduate Thesis on Designing Wearable Trinkets and Toolkits
- Relevant Coursework and Technical Electives** - Wearable Applications, Embedded Logic Design, Mobile Communication, Robotics, Computer Architecture, Computer Networks and Motion Graphics

Skills

PROGRAMMING LANGUAGE

- C, Embedded C, MATLAB, Python and Verilog

TOOLS AND TECHNOLOGIES

- Xilinx, LTSpice, MATLAB, Blender, AutoCAD, Adobe Photoshop, Adobe Premiere Pro, Git, Wireshark, VMware, Arduino, Raspberry-Pi, $\text{\LaTeX}$ PCB Designing

AREAS OF INTEREST

- Wearable Technologies and Applications, Virtual Reality, Fabrication Technologies, , Construction Toolkits and Tangible Interfaces

Work Experience

Weave Lab

IIITD, New Delhi, India

RESEARCH INTERN

May 2018 - Jul. 2018

- Worked on designing a toolkit for VR which would leverage the modularity and scalability of the already existing LEGO toolkit to create realistic VR experiences.

The Wordsworth Project

New Delhi, India

VOLUNTEER

Jan. 2019 - Present

- Helping children in rural parts of the city to comprehend English as a language and learn its intricacies through in-class activities.

Projects

Gehna: Exploring the Design Space of Jewelry as an Input Modality

ADVISOR: DR. AMAN PARNAMI

Team Size: 3

- By using Research through design approach (RtD), we defined the design space of jewelry to provide wearable-based input.

Vastara - A modular wearable system

ADVISOR: DR. AMAN PARNAMI

Team Size: 2

- A modular wearables' system, consisting of sensors and output modules embedded in cloth patches.

Adaptable Electric Surfaces

ADVISOR: DR. ALEXANDER FELL

Team Size: 4

- A low-cost home automation system which could control the electric appliances via Wi-fi from an app on phone using.
